

WHAT'S GOING ON OUT THERE?

It's the Main Street Improvement Project.

The Massachusetts Highway Department is well underway with its reconstruction project of Main Street Andover, from Stevens Street to Wheeler Street.

The project includes designated car turning lanes, paver crosswalks, underground utility lines, handicap access, new street lamps, tree grates and new trees, synchronized traffic signals, and much more. In the end, Andover hopes to have a well-designed, safe and vibrant downtown.

The Main Street Committee has reviewed the plans and monitored the progress for several years. The Committee knows that the construction affects homeowners, employees, tenants, business and building owners in and around Main Street.

Now that it is May, the Main Street Committee has a better understanding of the process and timing of the project.

The Main Street Committee will hold a Public Informational Session on:

Wednesday, May 28, 2008 at Memorial Hall Library at 7:00 p.m.

There will be a brief presentation, handouts, and an opportunity for questions and answers.

If you have questions or would like to view the Main Street improvement plans, feel free to contact the Planning Division at (978) 623-8310, or visit the Office of Community Development & Planning between the hours of 8:00 a.m. and 4:00 p.m. Monday through Friday.

Please pass along the date and time of the informational meeting. All citizens and business owners, tenants and employees, are invited to attend.

The Main Street Committee believes that once the project is completed,
Main Street will be a great place for all!

Lisa Schwarz, AICP
Senior Planner, Town of Andover

Cliff Markell, Chairperson
Main Street Committee
